INTRODUCING
**SAGE 50 ACCOUNTS
ESSENTIALS**

Welcome to the Sage 50 Accounts family. We'd like to introduce, **Sage 50 Accounts Essentials.**

Sage 50 Accounts Essentials is the new name for Sage Instant Accounts, but don't be mistaken this is more than just a name change.

Together with the name change we've packed it full of improvements to help with daily tasks, alongside major new functionality to make managing your business even easier. All the features you're used to and more.

As a member of the Sage 50 Accounts family, you'll also benefit from regular product improvements so you'll be amongst the first to experience the competitive edge provided by the latest new features.

You'll also have exclusive access to the growing range of Sage 50 Accounts add ons**, so you can truly customise your software to suit the needs of your business.

Here's what you can expect:

Real-time access to your accounts information anywhere with Sage Drive*

By linking your Sage 50 Accounts Essentials data to the cloud with Sage Drive, you can easily share it with other users. For example, a colleague working from home or on the move can access the same information as someone based in the office, in real-time. You receive one Connected Users with Sage 50 Accounts Essentials.

Sage 50 Accounts Tracker App

Perfect for anyone who needs meaningful business insight on the go, Sage 50 Accounts Tracker tells you how your business is performing from your smartphone. By cutting out the need to wait for reports or checking back with the office to get key business information, it helps you make quick, confident decisions about your business.

Work with your accountant in real-time*

By sharing your data in the cloud with Sage Drive, your accountant can access the data with their own secure log in, meaning you can both work on the same up to the minute data.

Bank Feeds powered by Yodlee*

Balancing the books is an integral part of managing accounts but it doesn't need to be a manual or tedious process. The Bank Feeds feature is exclusive to the Sage 50 Accounts family and makes reconciling your accounts and bank balances simple and error free. Match payments and receipts quickly and easily, discard personal transactions, and spend less time on time-consuming data entry, giving you a real-time view of your cash position at a glance.

BUSINESS INSIGHT
ON-THE-GO

KEEPING A HEALTHY **CASH FLOW**

Get paid faster with Invoice Payments*

The biggest challenge most businesses face is keeping a healthy cash flow. The best way to tackle this is to get paid faster by your customers and reduce the likelihood of invoices being unpaid. With Invoice Payments from Sage Pay you can do just that. By adding Pay Now buttons onto your invoices, your customers will be able to pay you instantly, easily and securely.

You'll also be able to accept card payments over the phone from directly within Sage 50 Accounts Essentials. All payments you take are automatically posted into your accounts, saving lots of time. Businesses like yours who use Invoice Payments get paid at least twice as fast as those that don't. There's no additional monthly charge, you'll simply pay a flat fee of 2.5% for the value of each payment you take.

Improved error correction

Everybody makes mistakes and there's nothing more frustrating than realising that you need to delete and start something again. But the latest functionality within Sage 50 Accounts Essentials means that is a thing of the past.

You can now quickly and easily edit journals, un-allocate credits and payments from an incorrect invoice and track which users have edited transactions. Meaning it's never been easier to keep your accounts accurate and up-to-date.

Plus, you can feel comfortable knowing that you can quickly review what's been edited, by who and when.

Surfacing information

Getting the right information when you need it is crucial to running your business. The latest version of Sage 50 Accounts Essentials means it's never been easier to analyse data without the need to source it from various parts of the software or create workarounds. New columns and fields mean more efficient data analysis and reduced frustration.

Drill down on aged debtors and creditors

Get more control of who owes you money and who you owe money to, without the need to move in and out of different screens. A more streamlined process makes it easier to get insight into your cash flow at the click of a button.

Streamlined dialogue boxes

Streamlined dialogue boxes puts the power of Sage at your fingertips. It's now easier than ever for you to find the information you need quickly, and work on it effectively, without having to learn or remember what to do. It's clearer, simpler and more intuitive than ever before.

User interface consistency

A streamlined and organised workspace is important to everyone and that shouldn't stop at your accounts software. The latest developments to Sage 50 Accounts Essentials mean you can customise exactly what you want to see when using the programme and that will be remembered when you log out. So, no more spending time re-setting your display to fit how you work.

Control your Stock

If you make money through selling products, then knowing how much stock you have and what it's worth is an important part of managing your cash flow. Sage 50 Accounts Essentials gives you greater control over your stock so you can manage it efficiently.

How can you enhance the power of Sage 50 Accounts Essentials?

Sage 50 Accounts Essentials has been developed to work seamlessly with a range of our add-ons**, like Sage Pay for example, so you can customise your business process and truly optimise how Sage 50 Accounts Essentials works for you.

*Only available with Sage Cover Extra and subscription contracts. Additional charges may apply.

**Upgrade to Sage 50 Accounts, Sage 50 Accounts Plus or Sage 50 Accounts Professional for full access to the catalogue of add ons.

Whether you're dealing with quotes and invoices, customers or VAT, **Sage 50 Accounts Essentials** will help you manage your day-to-day accounts with ease.
